Columbus AFB Mission:

Produce Pilots, Advance Airmen, Feed the Fight.

Welcome to Specialized Undergraduate Pilot Training at Columbus AFB, MS. You can best prepare by understanding our mission, knowing how to reach us with questions, and taking full advantage of this Welcome Package we have prepared for you.

**DEPARTMENT OF THE AIR FORCE
HEADQUARTERS 14TH FLYING TRAINING WING
COLUMBUS AIR FORCE BASE MISSISSIPPI**

Colonel Douglas C. Gosney
Commander, 14th Flying Training Wing
555 Seventh Street, Suite 205
Columbus AFB MS 39710-1000

Dear Newcomer

Welcome to Columbus Air Force Base, home of the 14th Flying Training Wing and the "Showplace of the South." I believe you will find this assignment rewarding and enjoyable, both personally and professionally.

Our Mission is to train US Air Force and allied pilots and to keep our Air Force personnel ready to deploy around the world in a moment's notice. Whether you are directly involved in the flying training mission or with the deployment mission, your position here is essential to what we do. I am happy to have you as a member of Team BLAZE. "BLAZE" is our motto and represents our commitment to **Building Leaders, Advancing Integrity, Service Before Self and Excellence in all we do.**

The nearby city of Columbus, nicknamed the Friendly City, offers several educational, cultural, social, and recreational opportunities. Columbus is located on the Tenn-Tom Waterway, making it a hot spot for large fishing tournaments. Right outside the base's south gate, there are numerous camping sites available just up the road at Lake Lowndes State Park. The Mississippi Department of Wildlife manages over 700 hunting clubs in the state, with white-tailed deer the most popular game species. Columbus also boasts two top-ranked dirt-track facilities, the Magnolia Speedway and the Columbus Speedway. Additionally, there are two major universities close to the base, Mississippi University for Women and Mississippi State University. Many other destinations are within a few hours drive from the base, such as Atlanta, Georgia; Memphis and Nashville, Tennessee; New Orleans, Louisiana; and the Florida Panhandle. I hope you will take the time to enjoy these tremendous opportunities while you are stationed at Columbus.

Throughout the 14th Flying Training Wing, you will find people ready and eager to meet your needs. If you arrive during duty hours (0730-1630), please report to your commander's support staff. If you arrive after duty hours, go to the Magnolia Inn, building 956, where the lodging staff will assist you with quarters or lodging for the evening. Again, welcome to Columbus Air Force Base and Team BLAZE!

Sincerely

DOUGLAS C. GOSNEY, Colonel, USAF
Commander

1 April 2016

MEMORANDUM FOR ARRIVING SUPT STUDENTS

FROM: 14 STUS/CC

SUBJECT: SUPT Welcome Letter

1. Congratulations on your assignment to Columbus AFB for Specialized Undergraduate Pilot Training (SUPT). I hope you are ready for what will likely be one of the most challenging years of your life, yet one of the most rewarding and memorable. If you will be accompanied by your spouse while you are here, this will be a challenging year for them as well. Please arm them for success by sharing their contact information with us upon your arrival so that we can get them plugged in with the spouse's network. The 14th Student Squadron (STUS) will be your home for your entire stay here at Columbus AFB, and I and the entire STUS team look forward to you earning your Air Force Wings!
2. Inprocessing for SUPT begins at the 14th Student Squadron Transition Manager's (TM) Office, which is located in Room 12 of Building 230. Direct any questions you may have to the TM Office which can be reached at DSN 742-7618/21 or Commercial (662) 434-7618/21. Your report no-later-than date (RNLTD) should be no less than ten duty days prior to your class start date. On the first duty day after your arrival at Columbus AFB, report to the TM Office in ABUs or blues to receive your in-processing briefing, checklist, base map, and other pertinent information. If you arrive after duty hours, report in at billeting and return to the TM Office no later than 1000 the next duty day.
3. Due to the high turn-over of students at Columbus AFB, housing priorities are constantly in flux. It is recommended that you call ahead and reserve up to 30 days of billeting at the Magnolia Inn (ext. 2548). This will help ensure that you have a place to stay on base while awaiting your unaccompanied officers' quarters (UOQ) or base housing, as appropriate. If you show up without a reservation, it is possible you could end up in a hotel for an extended period of time while awaiting permanent housing or a UOQ. You should call the housing office (ext. 7276 or 2840) before your arrival to get an update on the current situation. Unaccompanied/Single officers should contact the UOQ manager (ext. 7278).
4. Be in shape. You will take the Air Force Physical Fitness Assessment during Phase I, usually within the first two weeks of training. Physical fitness is vital to your ability to complete the SUPT program and a passing PFA score is required to begin flight line operations and to *graduate*.
5. Depending on the length of time between your arrival and SUPT start date, you may be on casual status while awaiting Initial Flight Training (IFT) and your SUPT class start date. While on casual status, you will support the wing by augmenting critically manned positions. This is a valuable opportunity to learn about operational/support roles in the Air Force and to broaden your appreciation of the team behind the flying operation. Expect to work normal duty hours during this timeframe.
6. Be ready – physically, mentally, spiritually. In order to complete the program, you will need to be completely committed to the Air Force's Core Values and to your flight training. It will not be an easy process, but at the end of training you will be extremely proud of your accomplishments. We look forward to helping you earn your wings!

4/11/2016

MEMORANDUM FOR ALL INCOMING PERSONNEL

FROM: 14 CES/CEIH
256 State Loop
Columbus AFB MS 39705

SUBJECT: Housing Welcome Letter

Congratulations on your assignment to Columbus AFB! We look forward to assisting you with your move whether you are interested in residing on base in privatized housing or in the local community.

Hunt Military Communities "Columbus Family Housing" provides privatized housing on Columbus AFB. Capitol Village homes are duplexes with hardwood or carpet flooring, all appliances (except microwaves) and washer/dryer hook-ups. State and Magnolia Villages homes accommodate gas or electric dryers and have carpeting or vinyl planking flooring. The waiting time for privatized housing varies according to rank and family size. For more information you may contact Columbus Family Housing at 662-434-8213, or view our website (www.columbusfamilyhousing.com) to apply. You may also find us on Facebook at "Columbus Family Housing". Our customer service hours are 0800-1700, Monday-Friday.

UTILITIES ALLOWANCE (UA): The Air Force revised its UA policy as of 18 May 16 to ensure quality on-base housing for military families and continue to cover utility costs for the average energy consumer. The policy will now be calculated using monthly meter readings with no buffer instead of the five-year rolling average with a 10-percent buffer the previous policy used. In order to ease the transition to the new calculation, current occupants at Columbus AFB will continue to receive the 10-percent buffer until 30 June 2017 or until they move out of their current privatized home, whichever is earlier. Under the former policy, military privatized housing projects spent hundreds of thousands of dollars annually on rebates that went to residents whose actual energy consumption rates were above average. This meant, Air Force-wide, privatized housing income went towards above-average rebates each year diverting funds from key program features, like maintenance support, housing modernization and community amenities. Under the new policy, the UA will still be determined by the average consumption rates of homes assembled in "like-type" groups at every installation, and will still be carved out of basic allowance for housing. The new policy also still supports the rebate system; however, the rebates will only go to those users who fall below the average user rate and a bill will be generated for users who exceed the average user rate.

PETS: A maximum of 2 pets per household are allowed and there is a weight limit for each pet of 100 pounds. Certain dog breeds (pureblood or mixed) are prohibited in privatized housing: Pit Bull (American Staffordshire Bull Terrier or English Staffordshire Bull Terrier), Rottweiler, Doberman Pinscher, Chow, and Wolf Hybrids. The only exceptions to this policy are ADA-approved and documented service dogs. Hunt Housing charges a nonrefundable pet fee of \$100 per pet and you are responsible for any damages to the home your pet may cause. This may include replacement of flooring or a pet treatment of the flooring upon your move out.

The Military Housing Management Office (HMO) provides on and off base housing referral service to all personnel assigned/attached to Columbus AFB. Permanent party personnel complete a new AF Form 594, *Basic Allowance for Housing*, through eFinance upon in processing and must contact the HMO within one (1) duty day for a Housing briefing.

For information on community housing near Columbus AFB please visit www.homes.mil. Single SUPT personnel must have permission from the UOQ manager to reside off base before entering into any lease. While there are no restrictive sanctions against any property manager at this time and you are free to rent anywhere, it is highly advisable that you do not rent any property "sight unseen", nor should you sign any lease for more than 1 year. We can be contacted at 662-434-3474 or by email at elizabeth.quinlan.1@us.af.mil. Our customer service hours are 0730-1615, Monday-Friday. You can find us on Facebook at "14 CES/CEIH".

TINA M. DURRAH
Columbus AFB Housing Manager

KESSLER M. COWANS
Community Director, Columbus Family Housing

18-15	08-Sep-17	30-Mar-18	28-Sep-18

Things to do before arriving at Columbus AFB

Billeting and housing are different. Billeting (The Magnolia Inn) is temporary, like a hotel. Housing is permanent, such as your dorm (UOQ), a house, or apartment off-base. You need to make arrangements for **both** billeting and housing!

1. Reserve billeting or temporary lodging facilities through Magnolia Inn for up to 30 days in advance. DSN: 742-2548; Commercial: 662-434-2548
2. If you are married or have dependents call ahead to the Housing Office to check on permanent housing. DSN: 742-3474; Commercial: 662-434-3474. For the housing waitlist call x8213.
3. If single or unaccompanied call the UOQ office at DSN: 742-7278; Commercial 662-434-7278.
4. Call ahead to the Transition Office and let them know if you have any special needs (spouse or childcare needs, etc) or if you have specific questions about the base. ***This is the go-to office for any of your questions!*** DSN: 742-7618; Commercial: 662- 434-7618
5. Prepare for the Air Force Physical Fitness Assessment (PFA).

All students have 180 days from their Date Arrived on Station (DAS) to schedule and take their official Fitness Assessment (FA). The Air Force Physical Fitness Test will also be administered during Phase 1 of UPT. Tracking the FA due date and getting scheduled is the responsibility of the student. Students that fail to meet the fitness standard (75 or above) will be entered into a conditioning program and retested. The AETC/DO directs that all UPT students not meeting physical fitness standards will be removed from training and placed in casual status upon completion of Phase 1. The test consists of a 1.5 mile run, a waist measurement, and 1-minute timed pushups and sit-ups.

6. Military Homefront is the official DoD website to assist military members and their families with all the details connected with a Permanent Change of Station (PCS). This site can be accessed through the following website: www.militaryhomefront.dod.mil/moving.

What to bring to Columbus AFB

Please have the following items for in-processing. This will ensure a smooth transition during your first few days here.

1. 10 copies of orders.
2. Military Identification Card.
3. Medical, shot, and dental records (Flight Physical)
4. Traffic Management Office (TMO) papers and receipts from the move (if applicable).
5. Uniform blues with flight cap, ABUs, flight suit if you have one, mess dress, and service dress.
6. All personnel records including a scanned copy of the front and back of your PPL card (if applicable).

Travel to Columbus AFB

1. **Air:** Golden Triangle Regional Airport (GTR) is the closest airport to Columbus AFB (23 miles). However, due to its size, travelers often use larger airports in the vicinity. Birmingham-Shuttlesworth International Airport is a 2 hour and 20 minute drive (132 miles) and Memphis International Airport is a 2 hour and 35 minute drive (154 miles).
2. **Drive:**
 - a. If you are traveling by automobile from the east (Birmingham), take AL-69N to Tuscaloosa then turn onto US-82 W toward Columbus. Take the 18th Ave exit and turn onto US-45 N. Columbus AFB is located 7 miles north of US-82.
 - b. If arriving from the south (Montgomery), take US-82 W/AL-25 S ramp to AL-219 N/Tuscaloosa. Continue to follow US-82 W toward Columbus. Take the 18th Ave exit and turn onto US-45 N. Columbus AFB is located 7 miles north of US-82.
 - c. If arriving from the north (Memphis), take I-22 E/US-78 E into Mississippi. Take exit 86A for US-45 S toward Tupelo. Continue on US-45 N to Columbus AFB.
 - d. If arriving from the west, follow above directions from Memphis **OR** if traveling via I-20 E, turn onto I-55 N in Jackson, MS. Then take MS-25 N to Starkville and merge onto US-82 E toward Columbus.
3. The main gate is located approximately 14 miles north of US-82. The main gate is open 24 hours.

Important Locations For In-processing

Order of In-processing

1. **14 STUS Transition office - Sign in and start in-processing Monday through Friday 0730 - 1630**
2. **Student Registrar - Update contact and address information**
3. **MPF and Finance - Required for ID's, computer use, and pay**
4. **Unaccompanied Officer's Quarters - For dormitory Assignment**
5. **Magnolia Inn - If you report to Columbus AFB over a weekend or after business hours, report to the Magnolia Inn for lodging and then report to the transition office at 0800 the following business day.**

Housing Frequently Asked Questions

Q: Why do I have to live in the UOQ's?

A: Assignment to the UOQ's is dictated by AFI 32-6005. The size, amenities, and who gets put in the UOQ's is based on that document, as well as a Columbus AFB supplement. If you're coming to Columbus for SUPT and unaccompanied, expect to live in the dorms for a period of at least six months even if you are Guard or Reserve.

Q: My neighbor plays loud music/smokes/is annoying. What can I do about this?

A: Please talk to your neighbor first, whether in the dorms or base housing, and attempt to settle the situation civilly. If living in the dorms and unable to settle the dispute, talk to Ms. Cyndi Fowlkes. If the problem persists, further complaints will be forwarded to the squadron commander for corrective action.

Q: Why doesn't the heating/cooling in my room work?

A: Sometimes the valve that regulates whether hot or cold water is circulating through your radiator (mixing valve) breaks. Usually replacing the mixing valve fixes this problem. If you are having trouble with your HVAC, contact Ms. Cyndi Fowlkes so that the problem can be forwarded to CE for action. Make sure you tell her – CE can't fix what they don't know is broken.

Q: There is black mold in my UOQ/TLF. Why is this here?

A: Mississippi is hot and humid; mold thrives here. Some ways to mitigate the problem include taking short, cool showers, drying the walls after use, and wiping the walls down with Lysol every one to two weeks.

Q: Why don't we have a dining facility on base?

A: Columbus AFB has had a Dining facility in the past, however, it did not receive enough business to be a sustainable service. There are simply not enough personnel on the base to warrant such a facility.

Q: The gym needs to be bigger/have a pool/have a larger weight room.

A: This is part of our long term plan. There is a project for a brand new facility, but that is dependent on funding. Don't expect a new facility for at least a few years.

DA20-C1 OPERATING INFORMATION TABLE

Indicated Airspeeds (KIAS)

V _{S0} Stall speed with flaps LDG	34
V _{S1} Stall speed with flaps CRUISE	42
V _R Rotate speed	44
Lift-off speed	52
Min. Forced landing final approach speed with flaps LDG	55
Standard pattern SFL final approach speed with flaps LDG	60
V _X Best angle of climb speed with flaps T/O	60
Normal landing final approach speed	60
Min. engine-out speed to sustain windmilling prop	60
Min. Forced landing final approach speed with flaps T/O	60
Min. Forced landing final approach speed with flaps CRUISE	65
No-Flap landing final approach speed	65
V _X Best angle of climb speed with flaps CRUISE	65
V _Y Best rate of climb speed with flaps T/O	66
V _Y Best rate of climb speed with flaps CRUISE	70
Best glide speed (1764 lbs)	73
V _{FE} Max. Airspeed with flaps LDG	78
V _{FE} Max. Airspeed with flaps T/O	100
V _A Max. speed for full or abrupt control inputs (1764 lbs)	106
V _{NO} Max. structural cruising speed	118
Force a stopped propeller to windmill if starter is inop	137
V _{NE} Never-exceed speed	164

Maneuvering

Positive limit load factor (flaps CRUISE)	+4.4
Negative limit load factor (flaps CRUISE)	-2.2
Positive limit load factor (flaps T/O or LDG)	+2.0
Negative limit load factor (flaps T/O or LDG)	0
Max. permissible bank angle for steep turns (in degrees)	60

Voltmeter

Voltmeter lower limit red arc (volts)	8-11
Voltmeter caution range yellow arc (volts)	11-12.5
Voltmeter green arc (volts)	12.5-16.1
Voltmeter upper limit red line (volts)	16.1

Fuel

Approved fuel grade	100LL
Usable fuel (US gal.)	24.0
Fuel tank capacity (US gal.)	24.5

Weight and Balance

Max. ramp weight (lbs)	1770
Max. takeoff weight (lbs)	1764
Max. landing weight (lbs)	1764
Forward CG limit (at or below 1653 lbs)	7.95
Forward CG limit (1764 lbs)	8.07
Aft CG limit (1764 lbs)	12.16
Aft CG limit (at or below 1653 lbs)	12.48
Max. weight in baggage compartment (lbs)	44

Power Plant Operation

RPM normal operating range (tachometer green arc)	700-2800
Min. RPM during engine runup idle check	975
Min. RPM ("area idle") if beyond gliding range of a runway	1400
Min. RPM during operations with fuel pump off	1400
Min. permissible full-throttle static RPM during engine runup	2000
Max. permissible continuous RPM if an IFT student is PF	2700
Max. permissible continuous RPM (tach redline)	2800
Min. RPM drop during magneto check	25
Max. RPM drop during magneto check	150
Max. RPM drop difference between magnetos	50
Max. permissible continuous bhp	125
Min. oil pressure (psi)	10
Oil pressure normal operating range (psi)	30-60
Max. time for oil pressure to reach 10 psi after start (sec.)	30
Max. oil pressure for full power operation if OAT < 0°C (psi)	70
Max. oil pressure (psi)	100
Min. oil temperature (°F)	75
Max. RPM after start until oil temp indication registers	1000
Oil temperature normal operating range (°F)	170-220
Min oil temp. to begin an area SFL at area idle (°F)	170
Min. oil temp for full power operation if oil pressure norm (°F)	100
Max. oil temperature (°F)	240
Min. oil quantity (US qts)	4
Max. oil quantity (US qts)	6
Fuel pressure lower limit red line (psi)	3.5
Fuel pressure upper limit red line (psi)	16.5
Max. continuous starter operation (sec.)	10
Max. cumulative starter operation before 3-5min cooling (sec.)	30
Max. time for CHT below 300°F in descent (minutes)	5
Min. CHT (°F) takeoff & descent	240
CHT normal operating range (°F)	300-420
CHT caution range (°F)	420-460
Max. CHT (°F)	460
Max. OAT (°C) operation w/ full winterization kit	0
Max. OAT (°C) operation w/ partial winterization kit	12.5

Pattern Wind Limits (KTS)

Max. tailwind dual or solo	5
Max. student solo gust spread	8
Max. student solo crosswind	10
Max. dual crosswind if IFT student is PF below 500' AGL	15
Max. student solo total wind	20
DA20-C1 Max. demonstrated crosswind component	20
Max. dual total wind if IFT student is PF below 500' AGL	25

Misc.

Max. aircraft structural temperature (°C)	55
Propeller approx. minimum ground clearance (inches)	10
Main landing gear tire pressure (psi)	33
Nose gear tire pressure (psi)	26
Min. OAT (°C) cabin heat not req for 10 min. before T/O	-20

Items in **red** must be committed to memory

Aerobatic maneuvers, spins, or stalls with greater than <u>50</u> pounds fuel imbalance 11. <u>Tail</u> slides	Minimum Landing Distance Available (LDA) <u>4,000</u> Feet or heavy weight flaps <u>up</u> landing distance plus <u>500</u> Feet, whichever is greater Minimum Runway Width <u>75</u> Feet
Airspeed Limitations	Winds
Max Airspeed Gear and/or Flaps <u>150</u> KIAS Max Operating Speed <u>316</u> KIAS or <u>0.67</u> Mach Full rudder deflection above <u>150</u> KIAS will exceed the limits of the rudder control system.	Max Crosswinds Dry Runway <u>25</u> Knots Wet Runway <u>10</u> Knots Icy Runway <u>5</u> Knots Touch-and-Go <u>20</u> Knots Formation Takeoff / Landing <u>15</u> Knots Maximum Tailwind Component for Takeoff <u>10</u> Knots Maximum Wind with Canopy Open <u>40</u> Knots
	Acceleration Limits
	Symmetric Clean <u>-3.5</u> to <u>7.0</u> Gs Symmetric Gear / Flaps <u>0</u> to <u>2.5</u> Gs Asymmetric Clean <u>-1.0</u> to <u>4.7</u> Gs Asymmetric Gear / Flaps <u>0</u> to <u>2.0</u> Gs
	Intentional Spin Entry
	Minimum Altitude for Entry <u>13,500</u> Feet MSL Minimum Cloud Clearance <u>7,000</u> Feet above clouds
	Icing
	Maximum Icing Band / Icing Type <u>5,000</u> Feet / <u>light rime</u>
	Temperature
	Ground operation is limited to ambient temperatures of <u>-23</u> to <u>43</u> °C

T-6A Boldface Emergency Procedures and Operating Limitations**18 July 2016**

Name	Checked By	Date
------	------------	------

Section 1. Boldface Emergency Procedures**Emergency Engine Shutdown on the Ground****Abort****Engine Failure Immediately After Takeoff (Sufficient Runway Remaining Straight Ahead)****Engine Failure During Flight****Immediate Airstart (PMU NORM)****Uncommanded Power Changes / Loss of Power / Uncommanded Propeller Feather**

(left front console) -

Inadvertent Departure From Controlled Flight**Fire In Flight****If Fire is Confirmed:****OBOGS Inoperative****Eject**

Section 2. Operating Limits

18 July 2016

Engine	Starting
Maximum Torque Takeoff / Max _____ % Transient _____ % (_____ Seconds) Torque above _____ % is indicative of a system malfunction.	Starter Limit: _____ Seconds Wait _____ Sec, _____ Min, _____ Min, _____ Min after each start attempt Maximum ITT _____ °C for _____ Sec (<i>Do Not Attempt Restart</i>) Maximum Oil Pressure _____ PSI
Maximum ITT Idle _____ °C Takeoff / Max _____ °C Transient _____ °C (Up to _____ Seconds)	Minimum Oil Temperature _____ °C Minimum Battery Voltage _____ V
N₁ Idle _____ to _____ % Ground, _____ % (Min) Flight	Pressurization Normal Above 18,000 Ft MSL _____ ± _____ PSI Overpressurization Valve Opens _____ PSI
N_p Idle _____ to _____ % Takeoff / Max _____ %, (_____ % ± _____ % PMU Off) Avoid stabilized ground operations from _____ to _____ % N _p	Fuel Normal Recovery Fuel _____ Pounds Minimum Fuel _____ Pounds (_____ Pounds Solo) Emergency Fuel _____ Pounds (_____ Pounds Solo) Minimum Fuel for Aerobatics _____ Pounds per side
Oil Pressure Takeoff / Max _____ to _____ PSI Aerobatics / Spins _____ to _____ PSI Aerobatics / Spins (Idle) _____ to _____ PSI (_____ Sec)	Runway Minimum Landing Distance Available (LDA) _____ Feet or heavy weight flaps _____ landing distance plus _____ Feet, whichever is greater Minimum Runway Width _____ Feet
Oil Temp Takeoff / Max _____ to _____ °C Transient _____ to _____ °C (_____ Minutes)	Winds Max Crosswinds Dry Runway _____ Knots Wet Runway _____ Knots Icy Runway _____ Knots Touch-and-Go _____ Knots Formation Takeoff / Landing _____ Knots Maximum Tailwind Component for Takeoff _____ Knots Maximum Wind with Canopy Open _____ Knots
Prohibited Maneuvers	Acceleration Limits
1. _____ Stalls 2. _____ Spins 3. Aggravated _____ 4. Spins with the PCL _____ 5. Spins with the _____, _____ or _____ extended 6. Spins with the _____ 7. Spins below _____ feet pressure altitude 8. Spins above _____ feet pressure altitude 9. Abrupt _____ maneuvers 10. Aerobatic maneuvers, spins, or stalls with greater than _____ pounds fuel imbalance 11. _____ slides	Symmetric Clean _____ to _____ Gs Symmetric Gear / Flaps _____ to _____ Gs Asymmetric Clean _____ to _____ Gs Asymmetric Gear / Flaps _____ to _____ Gs
Airspeed Limitations	Intentional Spin Entry
Max Airspeed Gear and/or Flaps _____ KIAS Max Operating Speed _____ KIAS or _____ Mach Full rudder deflection above _____ KIAS will exceed the limits of the rudder control system.	Minimum Altitude for Entry _____ Feet MSL Minimum Cloud Clearance _____ Feet above clouds
	Icing
	Maximum Icing Band / Icing Type _____ Feet / _____
	Temperature
	Ground operation is limited to ambient temperatures of _____ to _____ °C
