AETC A4/7 returns to visit Columbus AFB

14th Flying Training Wing Public Affairs

Team BLAZE was honored with a visit by Gilbert Montoya Director of Logistics, Installations and Mission Support, from Air Education and Training Command Aug. 31 at Columbus Air Force Base.

Montoya began his visit meeting senior wing leaders and re-

ceiving a 14th Flying Training Wing mission briefing describing the landscape of the past, present and future of Columbus AFB.

They then toured the Columbus-Lowndes County Small Arms Firing Range before proceeding to meet with all A4 leaders for lunch at the newly renovated Columbus Club.

"We got a chance to see the firing range, what an impressive See VISIT, Page 2

VISIT

facility," Montoya said. "We had talked about it last time and it hadn't opened yet, but there were already discussions going on about that partnership. It's pretty amazing to go and actually see that the city and community leaders are leaning forward to help us with a challenge we were overcoming.

Montoya finished the day touring the other A4 areas such as the Fire Station, L-3, and the 14th Logistics Readiness Squadron. While at the fire station Montoya presented a plaque to Ricky Songer, 14th Civil Engineer Squadron Fire Chief, in honor of their newly-received accreditation.

The second day of the visit, Montoya got a chance to tour the T-38 Test Cell site and Engine Shop before departing.

During his visit, Montoya praised the updates made to the NEXRAD radar site, improvements to the LRS, and the downtown shooting range, as well as expressing excitement for upcoming projects such as the community commons.

"It was good to see the close connection between the base and the community, and the people who have grown up here," Mississippi love Columbus AFB."

"It was good to see the close connection between the base and the community, and the people who have grown up here," Montoya said. "I can see why folks from Mississippi love Columbus AFB.

This was Montoya's second visit to Columbus AFB since 2014. When asked what his biggest take away from his visit was, he was impressed by the amount of work being done on Columbus AFB every day to support training.

"What a great mission Columbus is delivering for us," Montoya said. "When Gen. Roberson talks about airpower starting here, this is a perfect example. These young students who are graduating today and in the future are going to be our frontline warfighters. I can see firsthand, Montoya said. "I can see why folks from airpower starts here at Columbus AFB and with Team Blaze.'

Transportation

For Sale: 1978 Triumph Spitfire with extra parts and hard top for sale, \$3000 For more information call Danny at 549-5188 or 434-7317.

Fueling the future: AF works to 'home-grow' biofuels for DOD, industry

竇RINFIIF

Marisa Novobilski

Air Force Research Laboratory

WRIGHT-PATTERSON AIR FORCE BASE, Ohio — A need to address increases in petroleum costs with an environmentally friendly fuel source has led to a new way of looking at production—and the the DOD, but industry as well. Overall biofuel technology has been Defense Production Act Title III Program Office, part of the Air Force in development for years; the Title III office is working with industry Research Laboratory, is playing a critical role in commercializing this technology.

In simplest terms, a biofuel is a fuel produced from living matter that includes plant waste and animal fat, rather than a fuel produced through the geological process, such as coal, diesel and petroleum. Biofuels are environmentally friendly and form

from renewable resources. Most of all, biofuels are helping to expand military energy sources, improving reliability while decreasing dependence on

fuel foreign sources—benefits that President Barack Obama and the Defense Department stress are critical to national security.

"The military services were directed by the president to address the production of biofuels so we could mitigate the vulnerabilities faced when the price of fuel went up," said James

Neely, a program manager in the DPA

of petroleum-based fuels, the financial impact on DOD budgets is tredollars in expense."

The DPA Title III Program Office carries out presidential directives focused on advancing "home-grown" domestic production capabilities for leading edge technologies for national security. Through government and industry partnerships and financial incentives, the program plays a role in assuring domestic ability to produce.

"We have unique authorities through Title III, allowing us to enter into partnerships with commercial industry to put a manufacturing capability in place in response to a specific DOD need for technology," we are working to move the technology into the domestic industrial ing America stay great," Neely said.

base, with the end goal of a consistent supply at a competitive cost."

The biofuel program enables Neely and his team to work with a number of different companies to develop feedstock, acquire equipment and help firms develop a business strategy enabling them to sustain the production and distribution of biofuel for use not only by to commercialize the technology so that it is a viable and affordable option for all, Neely said.

One recent success of the biofuel program is the Bio-Synthetic Paraffinic Kerosene (BSPK) project. The project led to the retrofitting of an idle California-based refinery, making it possible to manufacture large-scale batches of biofuel for military and industry use. This particular type of biofuel is manufactured using the hydro-processed esters and fatty acids

ICTION

RODU

(HEFA) process. The blends process non-edible natural oils and agricultural wastes with hydrogen and a 3 AUU catalyst. The resulting fuel is able to blend with petroleum jet fuel in a 50-50 proportion, integrating into existing engine systems, including aircraft,

without modification.

The Navy integrated BSPK biofuels into the launch of the Great Green Fleet in January 2016, deploying the first carrier Title III Program Office. "When there is any disruption to the supply strike group to use alternative fuel blends and energy efficient systems to power ships for combat. The Air Force has qualified biofuels for use mendous. A \$1 change in the price of a barrel can result in billions of in almost all of their equipment and weapons systems, said Neely, and while they have purchased units for testing, fuller implementation depends strongly on cost and availability.

While biofuels have a strong benefit for the military, industry interest has helped drive these programs forward. For example, United Airlines has purchased biofuel for use in its fleet to power regular flights between Los Angeles and San Francisco.

"The benefit to the Air Force is that we will not be dependent on a single source of supply or international supply for our military fleets in the future. We are growing the domestic base, creating jobs and Neely said. "Biofuels are determined as essential to national security; building industry capability. These home-grown capabilities are help-

PROGRAM

(Continued from page 12) ROTC detachments, and 65 military entrance processing stations (MEPS) Airmen can contact the military personnel element/flight customer support section or the base education office for more information regarding AFEPQT and TBAS testing.

Airmen who've already amassed off-duty flying hours can apply that experience toward their score, which Pollard said is the same scoring system used to select Air Force officer pilots.

"AFEPQT and TBAS scores are combined with an applicant's flying hours to generate a pilot candidate selection method (PCSM) score, which if high enough, enables an Airman to advance to Phase 2 of the application process," she said.

All applicants will be considered based on their test scores. No later than Oct. 28, AFPC will announce a pool of 200-300 candidates for Phase II, which entails submitting all of the required application documents to AFPC and completing an Air Force initial flying class II physical examination. Airmen will have until Jan. 27 to submit a certified flight physical to AFPC.

The results of the inaugural Air Force Enlisted RPA Pilot Selection Board, which meets Feb. 6-Feb. 9, will be released in late February 2017.

"The Air Force is a place of opportunity," said Pollard, who was once an open general enlistee. "You may not have a full road map when you're offered these opportunities so it's up to you to say 'yes,' and ask yourself 'why not me?"

Air Force Chief of Staff Gen. Dave Goldfein expressed the importance of the ISR force.

"Our ISR capabilities are in demand by every combatant commander in every region," he said. "We must continue to ensure that we recruit, train and retain the very best in our RPA force. They are simply vital to the joint fight and a strategic resource for our nation."

Complete eligibility requirements and application procedures are available on myPers. From the dropdown menu, select "Active Duty AF Enlisted" and search "enlisted RPA.

Over 80 members attended the luncheon where Gosney introduced himself and shared his philosophies and ideas for the future of Columbus AFB.

Gosney speaks to **BCC** at luncheon

Airman 1st Class John Day 14th Flying Training Wing Public Affairs

Col. Douglas Gosney, 14th Flying Training Wing Commander, spoke at the Base Community Council luncheon Aug. 25, in the Club at Columbus Air Force Base.

The BCC is a multi-community organization that supports the common interest of the military and civilian communities. Members foster friendships between one another, exchange business ideas and expand local business relationships with the base.

"We have one objective," said Larry Cantrell, BCC President. "That objective is to help this base complete its mission to the best of their ability. This community stands behind the base and the things they do. Our mission is their mission."

In his first BCC luncheon, Gosney introduced himself and told the members about his philosophies and plans for Columbus

"We are so happy to be here," said Gosney. "We have gotten such a warm welcome from

"We are so happy to be here," said Gosney. "We have gotten such a warm welcome from the base and community."

the base and community. I look forward to getting to know all of you on a more personal level. It is evident to me already we do not do our mission without the support of our community partners."

Over 90 members attended the luncheon including both community partners and various Columbus AFB leadership.

"Thanks to all in attendance for coming out today to this luncheon to meet me," said Gosney. "This Golden Triangle Region, I know, is going to be a huge asset to how we continue to improve and carry out our mission here at Columbus."

Gosney Speaks to Team BLAZE about self, future

Senior Airman Kaleb Snav 14th Flying Training Wing **Public Affairs**

Col. Douglas Gosney held three Commander's All calls for Team BLAZE personnel Aug. 25 at Columbus Air Force

Gosney used to opportunity to introduce himself and his family. He then explained what he values most in people such as Integrity, Teamwork, Respect, Discipline, attention to detail, and loyalty.

"The Air Force core values are the standard right? It's what we should all live up to every day. Those are non-negotiable," said Gosney.

Gosney then spoke of the core values being a foundation for Airmen's lives to build upon with the right mindset.

"Your character is your integrity over time. That's how we build character," Gosney said. "A simpler definition I like base." is doing the right thing all the time even when nobody is watching.'

Gosney also spoke of his philosophy on how Airmen should direct themselves in their career such as being innovative, becoming a leader, staying positive, remaining at the you, and make good use of your time, because its short and ready and having a warrior mindset.

Airmen, and Feeding the Fight, Gosney wanted the base to know how integral is.

"Airmen and families are our most precious resources. If we're not taking care of them then none of this other stuff matters," Gosney said. "We can recruit individuals but we retain families.'

Looking at the near future Gosney reminded personnel of upcoming events such as the Free David Cook Concert, the Unit Effectiveness Inspection, and the Air Force Birthday Ball. Gosney also spoke of his experience with the Base Community Council.

"I spoke with our community partners this afternoon, and they know this relationship is really important," Gosney said. "They love our Airmen. They didn't come to base to hear Doug Gosney talk, they came because they love you guys and they want to support this

Gosney ended his speech with a video and a statement about taking advantage of life before it's gone.

"When you're not at work, do something to better yourself," Gosney said. "Do something to better the people around goes away... Thank you for your service. Thank you for lead-Focusing on the mission of Producing Pilots, Advancing ing our Airmen and thank you for getting the mission done."

1st Lt. Warren Semple memorialized in France for sacrifice

Paul Scoskie

49th Fighter Squadron Association historian

A ceremony honoring 1st Lt. Warren Semple, United States Army Air Corps pilot, was held to immortalize his sacrifice with a plaque monument in the center of a traffic roundabout Aug. 26 at the entrance to the City of Orange, France.

On June 15, 1944, Semple and the rest of the 49th FS was on a mission to strafe the Orange-Caritat Airfield in Southern France. After inflicting heavy damage on the German Air Force facility, the 49th FS formed up for the flight home. It was then they noticed Semple's P-38 was not among them. The last person to see Semple's aircraft was 2nd Lt. Donald Luttrell who stated, "It is my belief that Semple was hit by enemy anti-aircraft fire.'

Since September 2015, the 49th Fighter Squadron Association has been in contact with Nicolas Courtine, a historian living in southern

Many surviving members from

412th Test Wing Public Affairs

EDWARDS AIR FORCE BASE, Calif. - The F-35 Integrated Test Force here recently completed 25 missions comprised of 12 weapons delivery accuracy and 13 weapon separation tests as part of a monthlong weapons firing test surge.

Historically, WDAs take place once a month given the myriad of coordination required. The highest number previously accomplished in a month was three in November 2014 during block 2B software testing.

Maj. Charles Trickey, interim director of operations for the 461st Flight Test Squadron, flew the final mission of the surge Aug. 17. The mission was completed at White Sands Missile Range, New Mexico, where F-35 Lightning IIs shot two advanced medium-range, air-to-air missiles at a QF-4 drone. "Some of these WDAs were particularly challenging events," Trickey said. He said the final mission was actually the fourth attempt to complete this test. "It was really cool to see the satisfaction of the team, and to get that feeling of accomplishment after

doing something that challenging."

All told, the F-35 ITF deployed 30 weapons in 31 days, which included 12 WDAs and 13 separations, according to Trickey.

"Thirty separations in 31 days; that's never been done before in flight test," said Capt. Brett Tillman, a flight test engineer with the 461st FTS. "The fact that we could get everything together to do that number of separations in that few days is pretty amazing.' These successful test events — performed using the F-35's newest block 3F software ---demonstrated the accuracy of the aircraft. Five of the test events featured dropping mul-

tiple weapons.

The effort for this surge wasn't limited to the F-35 test team. There were a number of units outside the F-35 ITF that put in extra effort and time to make the surge successful. including Edwards AFB airfield and tanker operations, the 416th FTS and the F-35 Joint Program Office.

Tillman said. "The work these team members The F-35 weapons test team was given put in is amazing. It couldn't have been done of the F-35 — multiple sensors, navigation, exclusive use of the Sea Test Range, an inwithout them." strumented Pacific Ocean test area off the During this surge period, a total of 30 links and inter-agency range scheduling — all central coast near Point Mugu, California. weapons were dropped or fired, including Tests were also conducted at the U.S. Navy's the joint direct attack munition, AIM-120 China Lake weapons range in California and advanced medium-range, air-to-air mis-White Sands missile range. sile, GPS-guided 250-pound small diame-"The amount of coordination and team- ter bomb, AIM-9X Sidewinder supersonic, work from the ITF and the outside organi- heat-seeking, air-to-air missile and GPS la- month to expend 30 ordnance and advanced 3,000 maintainers trained to operate and zations to enable this is unprecedented," ser-guided munition.

F-35 surges forward with record-breaking weapons tests

Christopher Ball

Maj. Douglas Rosenstock fires an AIM-120 AMRAAM from an F-35 Lightning II during a recent weapons test surge at Edwards Air Force Base, California. By the end of the surge the F-35 Integrated Test Team released 30 weapons in 31 days, a first in flight testing.

"Thirty separations in 31 days; that's never been done before in flight test," said Capt. Brett Tillman, a flight test engineer with the 461st FTS. "The fact that we could get everything together to do that number of separations in that few days is pretty amazing.²

> "The WDAs rely on the full capability weapons envelope, mission planning, data working in sequence to put steel on target," said Lt. Gen. Chris Bogdan, an F-35 program executive officer. "This was a tremendous ef-

that much closer to delivering the full F-35 capability to warfighters within the next two years.'

The F-35 is a multi-role, next-generation fighter that combines advanced stealth with speed, agility and a 360-degree view of the battlespace. The F-35 will form the backbone of air combat superiority for decades to come and replace legacy tactical fighter fleets with dominant air-to-air and air-to-ground capabilities to deter and defeat potential adversaries.

The Marine Corps declared the F-35B combat ready, or initial operating capability, in July 2015; the Air Force declared F-35A IOC on Aug. 2: and the Navy intends to attain F-35C IOC in 2018. More than 200 fort by the F-35 test team. They surged and F-35s have flown in excess of 66,000 fleetworked seven days a week for more than a wide hours, with over 300 F-35 pilots and weapons testing. This testing has moved us support this next-generation aircraft.

AF opens enlisted RPA pilot program to all AFSCs

Master Sgt. Amaani Lyle Secretary of the Air Force Public Affairs

WASHINGTON — Using a phased-apolication approach, Air Force senior leaders are casting a wider net to ensure more active-duty enlisted Airmen are eligible to apply for the service's RQ-4 Global Hawk remotely piloted aircraft program, a Pentagon official said Aug. 29.

The program expands the eligibility pool from career-enlisted aviators to all Air Force specialty codes with a revised timeline in which Airmen now have from Sept. 1-Oct. 14 to take the computer-based Air Force Enlisted Pilot Qualifying Test (AFEPQT) and the Test of Basic Aviation Skills (TBAS), said Senior Master Sgt. Kimberly Pollard, an RPA enlisted specialty manager.

"The timeline has become more specific and gives Airmen more time to test, to prepare their applications, and to complete their flight physicals" Pollard said. "Now all Airmen should be able to take advantage of this program if they meet the qualificaions.'

Air Force Secretary Deborah Lee James explained the rationale behind the expansion and timeline change in which the first board packages are due by Dec. 16.

"Expanding opportunities in the RPA program is one of many ways the Air Force is tapping into the talent of our skilled, diverse and innovative enlisted force," she said. "This gives Airmen an opportunity to excel in a new way, and we couldn't be more pleased to open the doors."

According to the Air Force Personnel Center, Airmen who meet the eligibility requirements may begin Phase 1 and signal their intent to apply by taking the AFEPQT/TBAS at the nearest testing facility, located by visiting the AFPC's website and clicking on the "PCSM," or pilot candidate selection method, link at the bottom of the page.

Additionally, interested applicants who have previously taken the pilot portion of the Air Force Officer Qualifying Training or the paper AFEPQT may request their scores be considered if they do not wish to take the new computer-based AFEPQT.

Finally, interested applicants who have

opportunities in the RPA program is one of many ways the Air Force is tapping into the talent of our skilled. diverse and innovative enlisted force," she said. "This gives Airmen an opportunity to excel in a new way, and we couldn't be more pleased to open the doors."

"Expanding

taken the AFOQT or the paper AFEPQT within the past 180 days are prohibited from taking the AFEPQT again but may still send an email to confirm their intent to apply

Applicants must hold a rank from staff sergeant through senior master sergeant and be retainable for six years from course graduation date. Airman in all AFSCs are eligible for this program; however, a career field manager release is required for Airmen receiving a critical skills retention bonus or for Airmen in the following AFSCs: aerospace maintenance (2AXXX); battlefield Airmen (1C2XX, 1C4XX, 1T2XX, 1W0X2, 3E8XX); cyber (1B4X1, 3D0X2, 3D0X3, 3D1X2); missile maintenance (2M0XX); and nuclear weapons (2W2XX). Selection opportunities may be further limited or restricted during the board for some career fields in order to maintain acceptable operational manning levels.

Pollard explained that the AFEPQT, which covers four areas to include math and aviation knowledge, takes about 85 minutes while TBAS is a 75-minute exam Testing terminals are located at 54 Air Force and Air National Guard bases, 54

See **PROGRAM**, Page 14

Columbus AFB hunter education course starts Sept. 6 and 8

Frank Lockhart

• Today's Hunter in Mississippi — hunter-ed.com. \$24.50 Fee — Video narrated & interactive course, pay only when

• Mississippi Hunter Ed Course — HunterEdCourse.com. \$13 Fee - Narrated & interactive, pay only if you pass.

• HUNTERcourse.com Mississippi — huntercourse.com. \$24.95 Fee — interactive course, pay only when you pass. Upon completion of the online course, print the completion certificate and present it at the classroom portion.

There will be two CAFB classroom sessions. An abbreviated one, for military members who have passed a weapons qualification course, will be from 6 - 8 p.m. Sept. 6 in Phillips Auditorium. The complete classroom session will be from 6 – 9 p.m. Sept. 8 in Phillips Auditorium.

There is no cost for either classroom session on Columbus AFB. The full class is available to anyone over 10 years of age that has base access. Each participant must be present for the entire class, have a certificate to show completion of an approved on-line course, and pass a written exam. Another option is to attend one of the classes open to the public, which can be found on the MDWFP webpage.

To register for one of the 2016 Columbus AFB Hunter Education courses, follow the directions below. Parents, please fill out a separate enrollment for each child attending.

1. Go to https://education.mdwfp.com/Web/Event/Coun- 425-2538, or Frank Lockhart at 434-7958.

tySelection

2. Enter "cafb1" for the abbreviated course, or "cafb2" for the full 3-hour course, in the "Submit a Class Code" block in the upper right. This is a closed class, meaning no general public access, so it doesn't show up on the website.

3. Click "Register as a new user"

4. Fill in the information for your new account

Note: DOB format is mm/dd/yyyy.

Note: Enter N/A if individual doesn't have a Driver's Li-

5. Click "Register"

You should receive an email shortly, notifying you were successfully enrolled in the class.

For more information about the Columbus AFB Hunter Education Courses, contact Lt. Col. Brent Green at

SUPT class 17-13 volunteers at Riverwalk

Specialized Undergraduate Pilot Training Class 17-13 volunteered to spend their weekend cleaning and picking up trash in downtown Columbus Aug 27 at the Riverwalk throughou and around the 4.2 mile walking trail. The class hopes to volunteer every few months with the local community.

Security and policy review Did you know that as a military member you must coordinate all information relating to speech-

es, presentations, academic papers, multimedia visual information materials and information proposed for release to a publicly accessible Worldwide Website, with exception of Air Force publications, through the 14th Flying Training Wing Public Affairs Office? For more information contact the 14th FTW/PA at 434-7068.

Last Look Area

Recycling is what the Last Look Area provides! Slightly used furniture and equipment is available to all Columbus Air Force Base facilities for free. Pick-up and delivery is the customer's responsibility. There is a three-day maximum for customers who wish to reserve items.

Facility hours are from 8 a.m. - 4 p.m. Monday through Friday.

Need more information? Contact Inspections at 434–7231 or 434–7332. Parking is available at the back of building 158.

The Airman's Creed

	I am an American Airman.	Guardian of freedom and justice,				
	I am a Warrior.	My nation's sword and shield,				
	I have answered my nation's call.	Its sentry and avenger.				
	I am an American Airman.	I defend my country with my life.				
	My mission is to fly, fight, and win.	I am an American Airman.				
	I am faithful to a proud heritage.	Wingman, leader, warrior.				
	A tradition of honor,	I will never leave an Airman behind				
A	And a legacy of valor.	I will never falter,				
	I am an American Airman.	And I will not fail.				

Air Force **Readiness Programs**

(Editor's note: All activities are offered at the Airman & Family Readiness Center unless otherwise specified. For more information about any of the activities listed, call 434-2790.)

Transition Assistance Program GPS Workshop

This workshop is held 7:30 a.m. - 4 p.m. Sept. 12-16. The Transition Assistance Program Workshop has seminars on: Transition, Military Occupational Code Crosswalk, Financial Planning, Health Benefits, Mississippi Dept. of Employment Security, Dept. of Veterans Affairs, Disabled TAP, Dept. of Labor TAP portion. Preseparation counseling is required before attending. Recommend attendance is 8 - 12 months prior to separation/retirement. Spouses are encouraged to attend with their sponsor. For more information or to register call 434-2790.

Career Technical Training

This transition event is held $\overline{8}$ a.m. - 3 p.m. Sept. 19 - 20 and explores technical careers for post military personnel using VA Educational benefits. It is conducted by CALIBRE, a private company contracted by DVA. Prior registration is required, company requires 10 days notification and must have minimum of eight participates. For more information or to register call 434-2790.

Troops To Teachers

This workshop is 10:30 a.m. - noon Sept. 21. It is an informational workshop for members pursing or interested in a teaching career after the military. For more information or to register call 434-2790.

Linked-In Workshop

The Linked-In workshop is Sept. 26-27, 2-5 p.m. You learn how to establish and use a Linked-In account. To register and more information please call 434-2790.

Pre-separation Counseling

This counseling is a mandatory briefing for personnel separating or retiring, to be completed at least 90 days prior to separation. It may be completed up to 12 months prior to separation or retirement. The counseling is held daily at 8:30 a.m. It takes approximately 60 minutes. Please contact A&FRC, 434-2839/434-2790 for more information.

Pre, Post Deployment Tour Brief

These briefings are mandatory briefings for active-duty personnel who are either deploying or returning from deployment or a remote tour. The briefings are held daily at the A&FRC. Pre-deployment is at 9:30 a.m., and post-deployment is at 1:30 p.m. Please contact A&FRC, 434-2839/434-2790 for more information.

Survivor-Benefit Plan

COMMUNITY

Team BLAZE members speak for Women's Equality Day

Airman Leadership School class 16-5 and family attend a picnic hosted by the Military Affairs Committee and local Air Force Association chapter Aug. 27 at the Stennis Lock and Dam in Columbus, Mississippi. During the picnic, they received words of wisdom from Col. Douglas Gosney, 14th Flying Training Wing Commander, and many Columbus community members.

U.S. Air Force photo/Senior Airman Kaleb Snay

Airman Leadership School class 16-5 face off against enlisted leadership in a classic game of "Old vs New" volleyball Aug. 26 at Columbus Air Force Base, Mississippi. After a rigorous course totaling over 190 hours, the Airmen get the chance to relax and have fun as a team.

Airman Leadership School builds future NCOs, thoughtful leaders

Senior Airman Kaleb Snay 14th Flying Training Wing Public Affairs

After years of development, enlisted Airmen enter a time of transition from junior to full-on Air Force leader. During this period, they undergo training that will open their minds to opportunities and roles that they've likely never delved into before.

This transition is known as Airman Leadership School, a five-week-long mandatory program designed to develop Airmen into effective front-line supervisors.

Students go through numerous uniform inspections, conduct drill, study leadership roles and what type of leader they are and the best way they can lead their subordinates.

"Earlier in your career you are focused on getting everything you need to take care of yourself and have someone watching over you," said Staff Sgt. Noah Wright, 42nd Force Support Squadron ALS Instructor. "ALS is the first time you have to say 'Okay, it's more than just me now I have to take care of somebody else.' We give them the tools, but having the tools and using the tools are two different things."

Airmen spend over 190 hours total in ALS learning about these tools and how to use them to better not only themselves but their soon to be troop.

"It takes a lot of skill to supervise correctly," said Master Sgt. Perry Hollenbeck, 42nd FSS ALS Commandant. "You need to have the cognitive skills to do what you need to when you see something wrong and say 'I'm going to do something about it this time,' and people struggle with that..."

Some Airmen are unsure of what they will encounter and are pleasantly surprised.

"One thing that stood out to me is learning all the different types of leadership styles that are out there," said Senior Airman Taylor Varone, 14th Operations Support Squadron Air Traffic Controller. "Usually when you think of supervisors, you think of all the paperwork you have to go through, and you don't think of all the techniques to use with certain individuals because everyone is different. Not everyone can take leadership the same way."

As the course came to an end, Varone feels more confident in herself and is ready to take on her new role as an Air Force leader

"I feel prepared, and I'm looking forward to it," Varone said. "I definitely have a different outlook on it than I did in the beginning. I learned that the more effort you put into an Airman, the more likely they will see the Air Force in a more positive light and will want to stay in, and not have a negative view because they had bad supervisors." Varone, Hollenbeck and Wright all agreed that great

leadership will build a better future for Airmen.

"Leadership is definitely important, they are the ones preparing you for the future," said Varone. "Having good leaders is what makes the Air Force so great."

class is set to graduate Sept. 1 which is the first step in their heightened leadership role.
